Premises Entered

Premises Entered, Element 21, is completed
when a Burglary Offense has occurred.
(File Class 22001 and 22002 only)

The number entered under Premises Entered
is a two-digit number of structures (premises) entered.
For example, if a burglary suspect entered eight
separate units of a storage facility,
wherein different individuals rented each unit,
the number of premises entered would be 08.

Premises Entered is a mandatory field
(and only used) when the offense is
22001 or 22002 and the location site is
14 (hotel/motel) or 19 (rental storage).
